Contents to Volume 57 (1994)

Number 1 – April 1994

Guest Editorial

The epidemiology of chronic pain: time for new directions
I.K. Crombie, H.T.O. Davies and W.A. Macrae (UK) 1

Clinical Reviews

The role of psychological factors in chronic pain. I. A half century of study
A. Gamsa (Canada) 5

The role of psychological factors in chronic pain. II. A critical appraisal
A. Gamsa (Canada) 17

RESEARCH REPORTS

Pentobarbital prevents the development of C-fiber-induced hyperalgesia in the rat
C.L. Cleland, F.-Y. Lim and G.F. Gebhart (USA) 31

Chronic treatments with aspirin or acetaminophen reduce both the development of polyarthritis and Fos-like immunoreactivity in rat lumbar spinal cord
C. Abbadie and J.-M. Besson (France) 45

Somatization and pain dispersion in chronic temporomandibular disorder pain
L. Wilson, S.F. Dworkin, C. Whitney and L. LeResche (USA) 55

Do endogenous opioids mediate the relationship between blood pressure and pain sensitivity in normotensives?
J.A. McCubbin and S. Bruehl (USA) 63

Factors associated with early discharge from a multidisciplinary work rehabilitation program for chronic low back pain
A.M. Carosella, J.M. Lackner and M. Feuerstein (USA) 69

Radiofrequency lumbar facet denervation: analysis of prognostic factors
R.B. North, M. Han, M. Zahurak and D.H. Kidd (USA) 77

The Pain Beliefs and Perceptions Inventory: further evidence for a 4-factor structure
C.A. Herda, K. Siegeris and H.-D. Basler (Germany) 85

A classification of illness behaviour in pain clinic patients
I. Pilowsky and M. Katsikitis (Australia) 91

Biobehavioral pain profile: development and psychometric properties
J.A. Dalton, M. Feuerstein, J. Carlson and K. Roghman (USA) 95

Treatment of cancer pain in Norway. A questionnaire study
T. Warncke, H. Breivik and A. Vainio (Norway, Finland) 109

Organization of acute pain services: a low-cost model
N. Rawal and L. Berggren (Sweden) 117

Patient-controlled epidural analgesia in obstetric anaesthetic practice
P.D. Curry, C. Pacsoo and D.G. Heap (UK) 125

LETTERS TO THE EDITOR

SPECT and central pain
S. Canavero, C.A. Pagni, G. Castellano and V. Bonicalzi (Italy) 129

New brain imagings and statistical caution: a reply to Canavero et al.
A.C.N. Chen (USA) 130

Reliability and accuracy of memory for acute pain
N. Babul and A.C. Darke (Canada) 131

Reliability and accuracy of memory for pain
S.J. Morley (UK) 132

Comments on De Leon-Casasola et al., Pain, 54 (1993) 145–151
M. Visentin (Italy) 132

Reply to M. Visentin
O.A. De Leon-Casasola and M.J. Lema (USA) 133

Erratum 135

Announcement from the Publisher

Number 2 – May 1994

CLINICAL REVIEW

Do benzodiazepines have a role in chronic pain management?
P.L.I. Dellemijn and H.L. Fields (USA) 137

RESEARCH REPORTS

Study of the sensitivity of the diabetes-induced pain model in rats to a range of analgesics
C. Courteix, M. Bardin, C. Chantelauze, J. Lavarenne and A. Eschalier (France) 153

Pain measurement in cancer patients: a comparison of six methods
F. De Conno, A. Caraceni, A. Gamba, L. Mariani, A. Abbattista, C. Brunelli, A. La Mura and V. Ventafridda (Italy) 161

Coping with long-term musculoskeletal pain and its consequences: is gender a factor?
I. Jensen, Å. Nygren, F. Gamberale, I. Goldie and P. Westerholm (Sweden) 167

Chronic pain after soft-tissue injury of the cervical spine: trapezius muscle blood flow and electromyography at static loads and fatigue
S.-E. Larsson, M. Ålund, H. Cai and P.Å. Öberg (Sweden) 173

Heterotopic nociceptive conditioning stimuli and mental task modulate differently the perception and physiological correlates of short CO_2 laser stimuli
L. Plaghki, D. Delisle and J.M. Godfraind (Belgium) 181

Is systemically administered oxytocin an analgesic in rats?
X.-J. Xu and Z. Wiesenfeld-Hallin (Sweden) 193

Putative role of medullary off- and on-cells in the antinociception produced by dipyrone (metamizol) administered systemically or microinjected into PAG
V. Tortorici and H. Vanegas (Venezuela) 197

Dissociation of the α_2-adrenergic antinociception from sedation following microinjection of medetomidine into the locus coeruleus in rats
A. Pertovaara, M.M. Hämäläinen, T. Kauppila, E. Mecke and S. Carlson (Finland) 207

Allodynia evoked by intrathecal administration of prostaglandin E_2 to conscious mice
T. Minami, R. Uda, S. Horiguchi, S. Ito, M. Hyodo and O. Hayaishi (Japan) 217

Involvement of glutamate receptors in allodynia induced by prostaglandins E_2 and $F_{2\alpha}$ injected into conscious mice
T. Minami, I. Nishihara, R. Uda, S. Ito, M. Hyodo and O. Hayaishi (Japan) 225

Differential action of morphine and various opioid agonists on thermal allodynia and hyperalgesia in mononeuropathic rats
S.H. Lee, V. Kayser, J. Desmeules and G. Guilbaud (France) 233

Electrode positioning in thoracic percutaneous partial rhizotomy: an anatomical study
R.J. Stolker, A.C.M. Vervest, L.M.P. Ramos and G.J. Groen (Netherlands, Germany) 241

LETTERS TO THE EDITOR

Even hindsight is not always exact enough
K. Härkäpää, A. Järvikoski, G. Mellin and H. Hurri (Finland) 253

Central pain and deafferentiation pain: a controversial point
P. Procacci and M. Maresca (Italy) 254

Comments on Y. Fujita, *PAIN*, 55 (1993) 363–366
R.T.M. Van Dongen, B.J.P. Crul (Netherlands) 255

Reply to Drs. van Dongen and Crul
Y. Fujita (Japan) 255

Tail-flicks, temperatures and latencies: comments on Lichtman et al., PAIN, 55 (1993) 283–295
O.-G. Berge and A. Tjølsen (Sweden, Norway) 256

Changes in tail skin temperature are unlikely to be a confounding factor in the tail-flick test
A.H. Lichtman and B.R. Martin (USA) 258

Announcement from the Publisher 259

Number 3 – June 1994

RESEARCH REPORTS

Acetaminophen blocks spinal hyperalgesia induced by NMDA and substance P
R. Björkman, K.M. Hallman, J. Hedner, T. Hedner and M. Henning (Sweden) 259

Effects of experimental and clinical noxious counterirritants on pain perception
A. Sigurdsson and W. Maixner (USA) 265

Cognitive-behavioral classifications of chronic pain: replication and extension of empirically derived patient profiles
R.N. Jamison, T.E. Rudy, D.B. Penzien and T.H. Mosley, Jr. (USA) 277

Mothers' management of adenoid-tonsillectomy pain in 4- to 8-year-olds: a preliminary study
V. Gedaly-Duff and D. Ziebarth (USA) 293

Relationship of pain-specific beliefs to chronic pain adjustment
M.P. Jensen, J.A. Turner, J.M. Romano and B.K. Lawler (USA) 301

The factor structure of the Coping Strategies Questionnaire
L.C. Swartzman, F.G. Gwadry, A.P. Shapiro and R.W. Teasell (Canada) 311
Low Back Pain Rating scale: validation of a tool for assessment of low back pain
C. Manniche, K. Asmussen, B. Lauritsen, H. Vinterberg, S. Kreiner and A. Jordan (Denmark) 317
Inflammation of the colonic wall induced by formalin as a model of acute visceral pain
M. Miampamba, S. Chéry-Croze, F. Gorry, F. Berger and J.-A. Chayvialle (France) 327
Pre-emptive intrathecal administration of an NMDA receptor antagonist (AP-5) prevents hyper-reflexia in a model of persistent visceral pain
A.S.C. Rice and S.B. McMahon (UK) 335
The effect of thalamic nucleus submedius lesions on nociceptive responding in rats
V.J. Roberts and W.K. Dong (USA) 341
Tetracaine attenuates irritancy without attenuating desensitization produced by intravesical resiniferatoxin in the rat
R.M. Craft and F. Porreca (USA) 351
Sensory properties of ankle joint capsule mechanoreceptors in acute monoarthritic chickens
M.J. Gentle and B.H. Thorp (UK) 361
Extra-territorial pain in rats with a peripheral mononeuropathy: mechano-hyperalgesia and mechano-allodynia in the territory of an uninjured nerve
M. Tal and G.J. Bennett (Israel, USA) 375
Antinociception and behavioral manifestations induced by intracerebroventricular or intra-amygdaloid administration of cholinergic agonists in the rat
M.A. Oliveira and W.A. Prado (Brazil) 385
